

Producer of solar substructures - worldwide.

We are looking for you!

Project Engineer (m/f/d)

We are a young and dynamically growing company. The ZIMMERMANN PV-Steel Group has been developing, planning and supplying solar mounting structures for projects worldwide since 2009. Our portfolio comprises fixed tilt mounting systems, single-axis tracker systems and floating systems. As a fourth technology, we develop and design systems for Agri-PV applications.

The company headquarters are located in Oberessendorf, directly on the B30 between Biberach and Ravensburg. For some years now, we maintain several sales offices and work closely together with distribution partners all over the world.

Your tasks:

- Project engineering for multi-megawatt solar power plants
- Independent project alignment with clients
- Technical and economical project optimization
- Performing solar yield simulations for different substructure systems
- Close teamwork with project managers and design engineers
- Prepare construction preparation plans in AutoCAD Civil 3D
- Create assembly manuals
- And much more...

What we offer you:

- Performance-related pay
- Flexible working hours
- Company pension scheme
- Bonus payments, Leave and Christmas benefits
- Jobbike and charging stations for e-mobility
- Complimentary fruit, water and coffee
- And much more...

We offer optimal working conditions in our new office building. The working atmosphere and the team spirit are excellent.

Become part of the energy transition!

What we expect from you:

- A completed technical apprenticeship with relevant work experience or with further education to become a technician or master craftsman
- A successfully completed engineering degree
- Initial experience in the use of AutoCAD Civil 3D
- Strong communication skills
- Ability to work in a team
- Personal responsibility in planning and development tasks
- Innovative and self-motivated attitude
- Analytical and structured way of working
- German and English spoken and written
