

ZIMMERMANN

PV-Steel Group

Producer of Ground Mount Solar Mounting Systems – worldwide

New office in Oberessendorf

We are looking for you! Design Engineer (m/f/d)

We are a young and dynamically growing company. The Zimmermann PV-Steel Group has been developing, planning and supplying solar mounting structures for projects worldwide since 2009. Our portfolio comprises fixed tilt mounting systems, single-axis tracker systems and floating systems. As a fourth technology, we develop and design systems for Agri-PV applications. The company headquarters are located in Oberessendorf, directly on the B30 between Biberach and Ravensburg. For some years now, we maintain several sales offices and work closely together with distribution partners all over the world.

Your tasks:

- Development and design of PV mounting systems
- Creation of pile-driving and work plans, production drawings, assembly instructions, assembly gauges and fixtures
- Development of equipment and tools to optimise the products
- Cooperation with suppliers and our purchasing department
- Preparation of drawings for presentations and catalogues
- Test set-ups and load tests
- And much more...

What we offer you:

- Operational implementation of the project management basics learned in theory
- Performance-related pay
- Flexible working hours
- Company pension scheme
- Bonus payments, Leave and Christmas benefits
- Company car including private use and a Job bike
- Charging stations for e-mobility
- Complimentary fruit, water and coffee
- And much more...

We offer optimal working conditions in our new office building. The working atmosphere and the team spirit are excellent.

What we expect from you:

- A completed technical apprenticeship or further training as a technician or equivalent training
- Initial experience with common 3D CAD systems and ideally with SolidWorks
- High degree of technical understanding
- Interest in technical applications and innovative technology
- Strong communication skills
- Good working proficiency in English
- Ability to work in a team
- High degree of personal responsibility and implementation skills
- Analytical and structured way of working

Please E-Mail your application to:
