

# We are looking for you!

## Service employee in the technical area (m/f/d)

**We are** a young and dynamically growing company. The ZIMMERMANN PV-Steel Group has been developing, planning and supplying solar substructures for projects worldwide since 2009. In our portfolio we have fixed mounting systems, single-axis tracking tracker systems and floating systems. As a fourth technology, we develop and design systems for Agri-PV applications. The company headquarters are in Oberessendorf, directly on the B30 between Biberach and Ravensburg. For some years now, we have had several sales offices and distribution partners all over the world.

### Your tasks:

- Supervision of national and international construction sites
- Carrying out commissioning of the PV trackers
- Quality controls on the construction sites
- Customer and assembly training
- Process and product optimisation
- Documentation of processes and products
- Regular reporting

### What we expect from you:

- Successfully completed technical training, ideally with further training as a technician
- Initial professional experience in the field of photovoltaics is an advantage
- Good command of English
- Ability to work independently with a particularly high degree of customer orientation
- Willingness to travel weekly (mostly within Europe)
- High degree of flexibility
- Team-oriented, organised and structured way of working

### What we offer you:

- Performance-related pay
- Flexible working hours
- Company pension scheme
- Bonus payments, as well as annual Leave and Christmas benefits
- Job bike and charging stations for e-mobility
- Free fruit, water and coffee
- And much more ...

Our working atmosphere and the team spirit are excellent.

### We look forward to hearing from you!
