

We are looking for you!

Masterand (m/w/d)

We are a young and dynamically growing company. The Zimmermann PV-Steel Group has been developing, planning and supplying solar mounting structures for projects worldwide since 2009.

Our portfolio comprises fixed tilt mounting systems, single-axis tracker systems and floating systems. As a fourth technology, we develop and design systems for Agri-PV applications.

The company headquarters are located in Oberessendorf, directly on the B30 between Biberach and Ravensburg. For some years now, we maintain several sales offices and work closely together with distribution partners all over the world.

Your tasks in our team:

- Development of new tracking strategies for our PV tracker
- Data evaluation for yield optimisation for diffuse irradiation conditions
- Market research in the field of PV trackers
- Validation of different approaches (sensors, satellite data, cameras)
- Development of algorithms for software implementation in the tracker control system
- And much more...

What we expect from you:

- You are an enrolled student at a University or College, preferably with a background in the energy industry.
- Initial programming experience is advantageous (Python)
- Proficient in Microsoft Excel, Matlab an advantage
- Strong communication skills
- Business fluent in English and German
- Ability to work in a team
- High level of personal responsibility and implementation skills
- Innovative and self-motivated attitude
- Analytical and structured way of working

What we offer you:

- Family-run company
- A motivated team
- Attractive salary
- Flexible working hours
- Charging stations for e-mobility
- Complementary fruit, water and coffee
- And much more...

We have optimal working conditions in our new office building.

Are you looking for a strong team spirit in a young team that wants to achieve great things? Then you've come to the right place!

Please send your application by e-mail to:

Zimmermann PV-Steel Group

Sandelholzstraße 1

88436 Oberessendorf, Germany
